SUMMARY

Motivated Software Engineer with a strong passion for coding and a bachelor's degree in Electronics and communication. Proficient in HTML5, CSS, Bootstrap, Python and JavaScript. Knowledgeable in front-end frameworks like bootstrap, Tailwind CSS, back-end frameworks like Django. Familiar with Git, GitHub. Strong problem-solving skills and a quick learner. Seeking opportunities to apply my skills and contribute to full stack development application projects.

TECHNICAL SKILLS

Programming Languages - Python, JavaScript, ES6+.
Web Frameworks - Django, Bootstrap, Tailwind CSS.
Libraries – React.
Other Tech - Git, GitHub, SQL.
College Coursework - Python, OOPs, Data structures and algorithms.

PROJECTS

Portfolio Website
- Created an interactive and visually appealing portfolio using html, CSS, and JavaScript to showcase my skills and projects.
- Utilized modern web design techniques to ensure a captivating and responsive user experience.
- Implemented dynamic elements and smooth animations for enhanced engagement and navigation.
  Tech Used - HTML, CSS, JavaScript, Bootstrap, React.

Netflix Standing Page Clone
- Developed a responsive Netflix homepage replica employing HTML, CSS, and JavaScript.
- Crafted with accurate styling and layout, it includes interactive elements like dynamic carousels and content loading, providing users an authentic browsing feels like the original platform.
- Delivers an immersive user experience reminiscent of the official platform.
  Tech Used - HTML, CSS, JavaScript.
